Leopard Creek Country Club

Leopard Creek borders the picturesque Crocodile River and the Kruger National Park and this 360-hectare development represents African golf at its best. Typical bushveld hills overlook the course and provide an ideal backdrop for a magnificent course. Designed by Gary Player. The 505 meter par-five 13th is one of Leopard Creek's most memorable holes. Here the green is right on the edge of the Crocodile River but 32 meters above the level of the water, offering magnificent views up the river and into the Kruger Park. Gary Player is especially proud of the par-five 18th with its island green and the par-four 9th with its peninsula green jutting out of the same body of water.

Leopard Creek is an exclusive golf course for members only; however they do have concessions with lodges, for their guests to play Leopard Creek during **weekdays only**. Weekends and public holidays are for members only.

Gary Player Country Club

Off the back markers the course measures over 7 000 meters which makes it one of the longest in the world. But a variety of tees make it possible to shorten the course and render playable for all levels of golfers. A distinguishing feature of the course is its green's complexes, with strategically placed bunkers, swales and mounds that protect the super slick clover shaped greens. With pristine perfect kikuyu fairways and excellent bent grass greens the course is kept in perfect condition all year round. A feature hole? Well they're all good at the Gary Player Country Club, but for risk and reward the stand-out is the 9th. Play this par 5 from the forward tees and then have a go for the island green with your second and thrill to the challenge of this superb test of golf.
